## SYNOPSIS:

**Genesis is the book of origins:** origins of our universe, the human race, sin, redemption, family life, corruption of society, the nations, the different languages and the Hebrew nation. But more importantly, it tells us in story form the nature and character of God. It shows us the place of man in God's creation. It offers an analysis of sin and its consequences and God's heartbreak because of it. However, the most dramatic part is that this book lays out the origin of God's plan of redemption. Yes! Man's sin separated humankind from God. But God put a plan in motion to redeem all things back to Himself. Genesis is the beginning of that story.
