KEY VERSE

SYNOPSIS:

Habakkuk is confused about the mystery of unpunished evil in the world. He is troubled by the rapid progress of Judah's moral and spiritual deterioration. He is even more troubled about why God would use a wicked nation to punish a "less" wicked one. God makes it clear that both nations are to be judged according to their evil. And although Habakkuk may not fully understand, he has learned to rely totally on the wisdom and justice of God to bring about the proper resolution in ways he could never have imagined.
